

A Citizens Workshop: *Local Water Trends* *The Past, Present and Future of Water*

When: Saturday, October 12, 2002 8:45am-12:30pm

Where: Watson Lake Pavilion
At the intersection of Highway 89 and Willow Lake Rd.

Who: Citizens interested in the responsible use of our scarce water resources

Workshop Purpose: To discuss local water issues and determine interest in creating a citizens water advocacy group.

Speaker Presentations:

- ❖ **Drought** - weather trends and drought cycles
George Howard, Warning Coordination Meteorologist, NWS, Flagstaff.
- ❖ **Prescott AMA** – water resources in the Prescott Active Management Area and water availability trends for the future
Jim Holt, Director, ADWR, Prescott Active Management Area.
- ❖ **Big Chino** – water resources and surface and ground water interactions
Laurie Wirt, Hydrogeologist, USGS, Denver.
- ❖ **Growth** - trends and water sustainability in our communities
Tom O'Halleran, State Representative for District 2.

*Bring lunch to eat in the pavilion and enjoy the camaraderie afterwards
(Beverages provided by Verde River Citizens Alliance)*

Optional hike in Watson Woods after workshop.
